ABOUT US

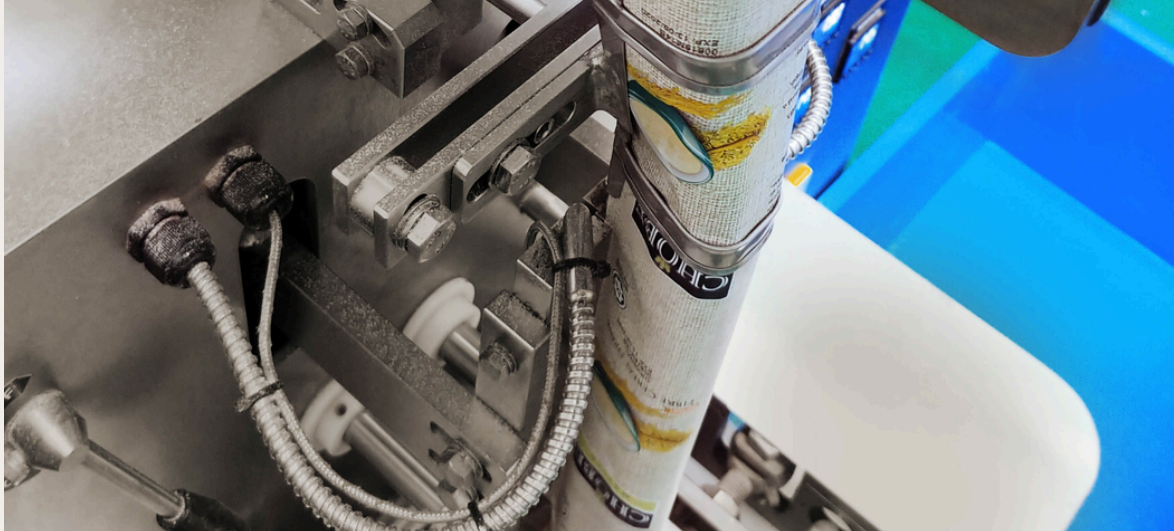

Bio Care Supplements Worldwide Manufacturing Sdn Bhd is a leading producer and exporter of innovative and premium quality functional food products, enriching the lives of consumers globally.

With over 15 years of experience in the food and beverage manufacturing industry, we specialize in OEM/ODM powdered beverage production in Malaysia.

We are dedicated to upholding the highest standards of quality and safety. Our state-of-the-art facility in Lunas Kulim, Malaysia, complies with rigorous health regulations and certifications, including GMP, HACCP, MESTI, and JAKIM HALAL Certification.

This ensures that every product meets industry-leading standards for safety and quality control, providing our clients with efficient and cost-effective solutions for manufacturing needs.

ABOUT US

Our exciting range of novel products offers a wide array of nutrient-infused beverages fortified with health-supporting vitamins and minerals. Additionally, we provide other functional food products that aid in maintaining optimum physical, mental, and emotional health and well-being.

In today's fast-paced society, where consumers seek effective, convenient, and affordable solutions for their physical health, Bio Care's products are tailored to meet these demands perfectly.

Bio Care's innovative products are strategically positioned in top retailers nationwide and accessible through our dynamic network of distributors and partners across the region. Our robust foundation and unwavering commitment to excellence forecast exciting market expansion and exponential growth in the years ahead.

Core Values

Vision

"To become a world-class manufacturer in the food and beverages industry by consistently creating outstanding and innovative functional food products that fulfill the needs of health-conscious consumers and private label or contract manufacturing partners."

Mission

"Committed to providing high-quality products and creating value for both customers and business partners by integrating traditional recipes with the power of scientifically advanced food processing technology and processes."

- Altruism
- Motivation
- Teamwork
- Communication
- Dependability

OUR TEAM

At Bio Care Supplements Worldwide Manufacturing Sdn Bhd, our ability to bring innovative and outstanding products to our customers begins with our excellent team members. Each member is an expert in their respective fields, bringing a diverse yet valuable set of experiences from various industries and backgrounds. What unites us is a shared passion for improving the lives of our customers through functional food products that revitalize, refresh, and rejuvenate.

Our team's strength lies in our work culture, which is built on deeply ingrained key fundamental values - Altruism, Motivation, Teamwork, Communication and Dependability. These values drive us to deliver our very best, ensuring exceptional quality and value for our customers.

OUR PRODUCTION AND FACILITIES

Bio Care's state-of-the-art manufacturing base in Lunas, Kedah, strategically situated in the pristine northern region of Peninsula Malaysia, embodies our commitment to innovation and quality. Equipped with avant-garde technology and exclusive proprietary processes, our facility is where health-supporting functional foods are meticulously crafted to delight both the palate and well-being of consumers.

We take immense pride in our adherence to international food hygiene standards and certifications. Our facility boasts full compliance with Good Manufacturing Practice (GMP) and MeSTI certifications, ensuring the highest level of quality and safety in every product. Additionally, our Halal certification and adherence to Hazard Analysis and Critical Control Points (HACCP) principles guarantee the safety and dietary suitability of our products for diverse consumers.

Our continuous investments in machine maintenance and team training underscore our commitment to excellence. Situated in the heart of Malaysia's food manufacturing hub, our facility combines cutting-edge technology with stringent quality control measures, consistently exceeding industry standards. This dedication fuels our mission to create functional foods that contribute to overall well-being and deliver a delectable culinary experience.

OUR CAPABILITIES AND SERVICE

Bio Care offers advanced manufacturing capabilities and a comprehensive range of services, specializing in private label and OEM contract manufacturing. Our facility features high-speed production lines, top-of-the-range mixing and packing machines, and efficient extruders for various product types.

With over 15 years of experience, our professional team ensures reliable R&D for customized formulations and strict quality control measures, delivering consistent and high-quality nutritional products in liquid, gel, teabag, and herbal gourmet coffee formats. We provide a one-stop solution from product design to production, ensuring a seamless experience for our clients.

ONE-STOP SOLUTION

Bio Care offers a comprehensive one-stop solution from product design, registration, and production to finished product delivery.

EXPERIENCE

With over 15 years of industry experience, our team is led by professional nutritionists, food scientists, and engineers.

RESEARCH AND DEVELOPMENT

We provide reliable R&D services to customize effective formulations tailored to our clients' needs.

QUALITY CONTROL

Our strict QC measures ensure product consistency and adherence to high-quality standards.

OEM AND CONTRACT MANUFACTURING

In addition to our fantastic range of functional food products under our well-known brands, we are also a much sought-after partner for OEM, contract manufacturing, and private labels.

Throughout the years, Bio Care has consistently introduced different functional foods that address the different needs of consumers, making Bio Care a well-respected leader in the health-supporting food industry.

We provide a complete range – from product concept development and customized product formulation to lab analysis and packaging design and printing as well as production and certification of the product.

Being a specialist in the industry, Bio Care is your perfect business partner when it comes to OEM and contract manufacturing for high-quality and market-centric functional food products.

INSTANT BROWN RICE BEVERAGES

Chobe Master instant brown rice beverages is a convenient alternative to indulge in the natural goodness and fragrance of brown rice with a fibre-packed, all-in-one, easy to use sachet which is suitable for the consumption of all age groups.

Bio Care uses whole brown rice grains which means the germ and bran of the brown rice are all well retained in the cereal mixture. For a more natural boost, no artificial preservatives or coloring agents are added in our Instant Fibre Brown Rice Beverage and they are the perfect energy booster and wonderful meal alternative in our hectic daily schedules.
